

Mark
Nizer

TECH RIDER

NOTE: Mark Nizer can supply all sound, lights and video for gigs that he is driving to. Typically within 10 hours of Charlottesville, VA.

STAGE:

A indoor stage with an area at least 12' x 20'.
A minimum ceiling of 10'.

SOUND:

A basic sound system compatible with the performance space.
Must have at least 2 inputs.

LIGHTS:

Full Stage Wash to brightly light the performance space.

VIDEO:

A basic video projector with a VGA or HDMI input.

OPTIONS (not required):

A performance space with no windows and the ability to have a blackout is preferred. This is to accentuate the lasers, black lights and other props that produce light.
